INTRODUCTION

We might have a little more than your expectations

Since its formation from 1997, WINGS has established a deserved reputation throughout Pakistan and Afghanistan both for reliability and for original design. We wish to extend our thanks to all those valued officials and private clients whose continued patronage has allowed us to expand our business successfully, and we welcome all new customers wishing to take advantage of our unique range of services.

We have a highly trained team of experts with our previous experience behind them. We believe that this enables us to claim an expertise which is unrivaled in South East Asia.

The present setup of the organization has the capabilities and potential for carrying out the consultancy activities as per international standard of SPECIFICATION of valued client.

The organization have experienced and qualified architects, designers, engineers and technical personnel dedicated to work. We also possess almost all the necessary consultancy and design services equipment which is in operation on various projects in hand. We are planning to import some more equipment/machinery, to bring our organization in line with the world standard of contract objectives which is now-a-days essential to complete the project in the stipulated time.

Company Profile

WINGS is a growing full service architectural firm dedicated to the concept that architecture is a socially responsible and environmentally respectful pursuit. We are committed to making buildings of understated dignity, expressed through the play of light upon the natural beauty of materials. We believe that buildings are best when they express their purpose and interact sympathetically with their surroundings.

WINGS promotes fair and affordable housing, community involvement, historic preservation, and sustainability and resource management. In recent years we have completed numerous commercial, civic, institutional, educational, residential, and historic preservation projects for a variety of public and private clients throughout Pakistan and Afghanistan. We believe our success is attributable to our attention to detail, technical experience, creativity, and true professionalism that we bring to every project.

WINGS operates on the team approach, bringing together owners, users and professionals in a collaboration of knowledge, needs and effort, realizing greater results and enhanced solutions. We constantly strive to explore creative opportunities within each project undertaken.

Mission Statement

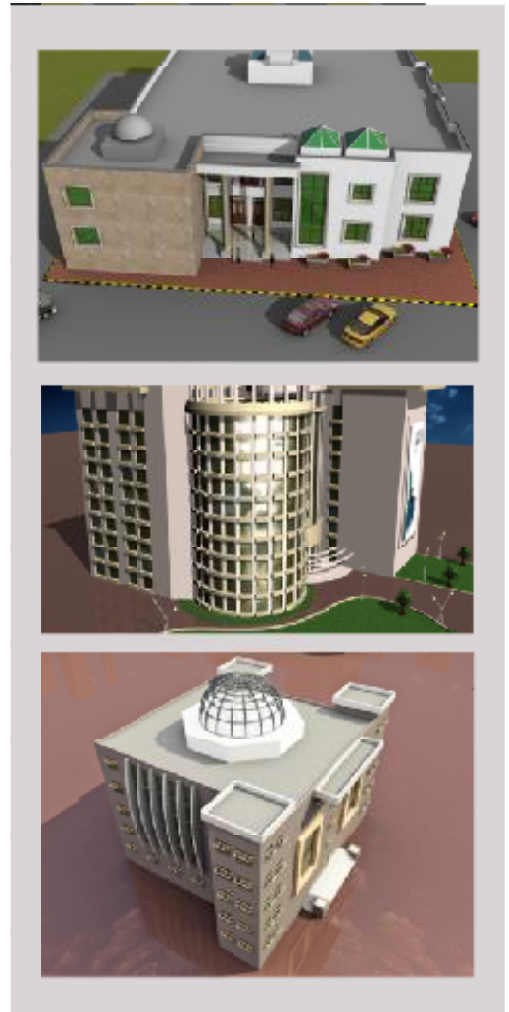

WINGS is committed to providing clients with innovative design solutions for particular projects that result from a highly investigative design process, a studied analysis of traditional and unconventional architectural, Structural and MEP designing techniques, and an ongoing commitment to researching sustainable technologies and resource efficient methods.

Each of our projects strives to enrich one's experience of space, light, context, materials and craftsmanship through the experience of architecture. It is our belief that exemplary architecture not only provides functional space, but acts as a lens through which we view, understand, and appreciate the natural and man-made world. In this way, architecture can offer order, beauty, and inspiration. Architecture, as we view it, is art.

It is our belief that architecture should be harmoniously linked to microclimate, context, and both local and global sites. As a result, we promote the sale and use of local building materials, employ energy and resource efficient design strategies and actively practice "green" architecture. In conjunction with these aims, we produce designs which are bold and unique to each client and site. Collectively, we have over 15 years of architectural, Structural and MEP design & supervisory experience. Our methods and practices are tested and reviewed on site where their performance can be evaluated. In this way, we can provide inventive and creative designs for environmentally and socially responsible residential, commercial and public projects.

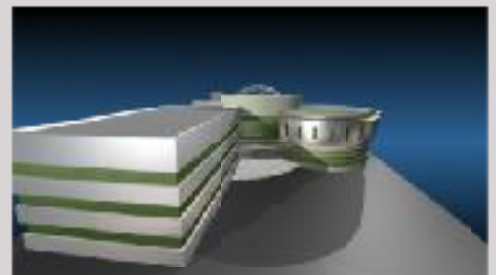

We deliver a unique and personal product. Although projects range from new construction at the civic scale to the smallest residential remodels, each design opportunity brings creative potential. Wings Architecture's strength is transforming this potential into reality.

Design Features

WINGS particular attention on the careful investigation design solutions that are both practical and beautiful. We can use the newest building technologies or very traditional ones, choosing materials and methods that best reflect the needs of our clients. We also focus attention on future growth, so that our client's buildings can absorb future growth and with minimal disruption. Our firm addresses budget and cost control issues from the early schematic phase to final construction documents.

Services

SERVICES AS CONSULTANTS

As Consultants we provide the following services

- Architectural Design
- Structural Design
- Mechanical, Electrical & Plumbing (MEP)
- HVAC Design

DESIGN SERVICES

Great Architectural Design emerges from a careful analysis of project requirements, client goals, and budgetary constraints. The process includes direct and continuing involvement of one or more professionals from the firm in all stages of project development.

- Programming
- Preliminary Design
- Budget Development
- Design Development
- Contract Documents and Specifications
- Contract Administration
- Post Construction Services

ENGINEERING SERVICES:

Structural Engineering forms an integral part of each building design. Our analysis of the options for structural systems, based on costs, time constraints, and available materials and labor, begins early in the project at the schematic phase. Such considerations continue through the coordination of technical details and contractor input during design development and the preparation of construction documents.

- Building Inspection and Report
- Structural Analysis and Design
- Review of Alternative Systems
- Contract Documents/Coordination
- Construction Inspection and Review

PLANNER SERVICES.

Land Planning services cover a broad array of project types that demand the thoughtful integration of site conditions and building elements. The most successful land development understands the complex interplay between the architecture, the infrastructure, and the natural features of the site. We remain committed to developments that achieve our clients' goals while preserving and enhancing the environment.

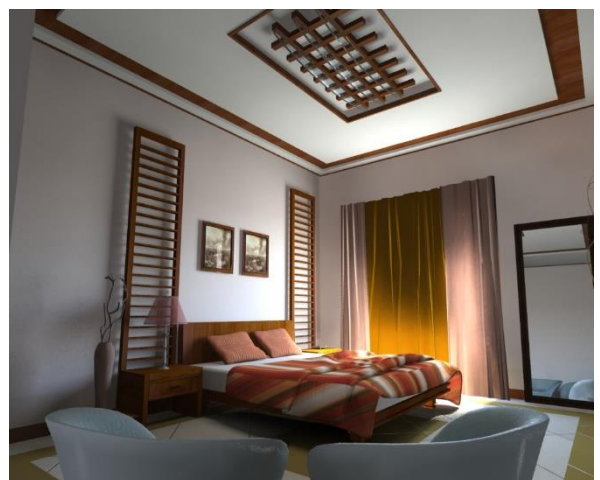

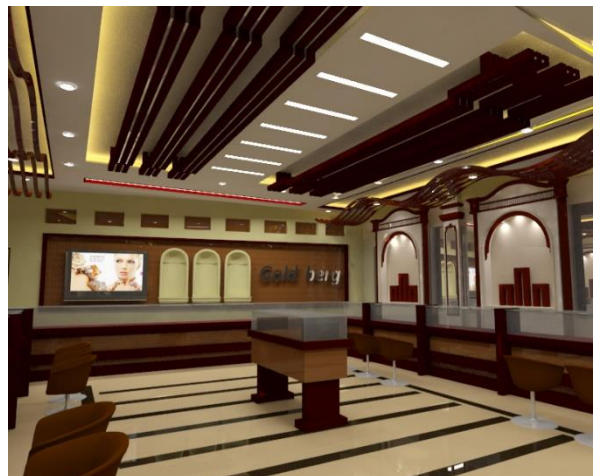

- Master Planning
- Site Planning
- Zoning Approval Process
- Re-development Projects

INTERIOR SERVICES

Interior Design emerges from a serious investigation of the client's specific requirements in terms of function and image. Our designers possess a thorough working knowledge of building systems, construction, and materials that allow them to be innovative as well as practical in finding the appropriate expression for each project.

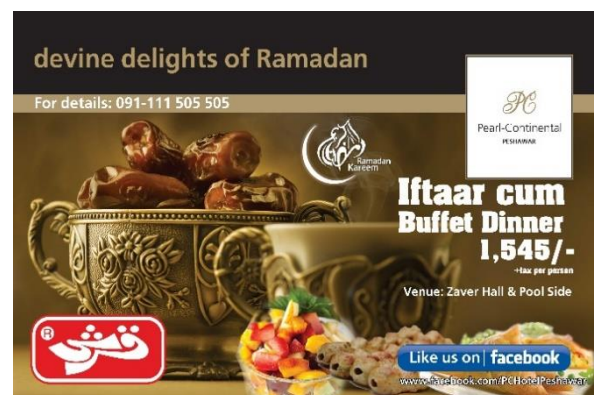

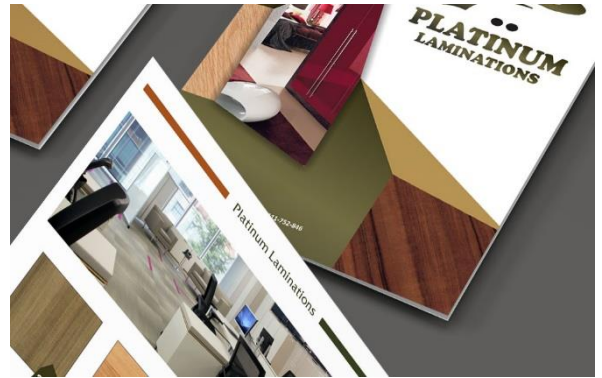

- Tenant Finish
- Programming / Space Planning
- Furniture and Equipment

GRAPHIC DESIGNER SERVICES.

An highly skilled team of graphics designers works to make your design different, ever since Of wings designers, we have always endeavor to materialize what our valued client desires, We have been serving a large chain of our clients and offers to let us be a part of you.

TO WHOM IT MAY CONCERN

It is to certify that Mr. Muhammad Kashif, Principal Architect bearing CNIC 17301-7262479-5 was hired for consultancy services by AGEK/KfW-FC TB Control Programme NWFP for "Design, Planning, and Construction Supervision of the Provincial TB Reference Laboratory (PTRL) , Provincial TB Control Programme (PTP) HQ and Biosafety Level-3 (BSL-3) laboratory".

With the completion of designing phase I have no hesitation in saying we found him very hardworking cooperative and with creative abilities of tackling the problems. He is good at grasping the needs of the clients and fulfillment of the same with a quick response. He was also sent to Dubai on a special intensive training to understand the technical aspects of BSL-3 construction. He will also be responsible for the supervision of the construction of the above mentioned facilities.

All in all Mr. Kashif is a committed person and handles responsibilities in a professional manner. As we believe he has the capacities to manage similar works I can recommend him for similar projects. Thanks.

Azra Shah

Audit Report

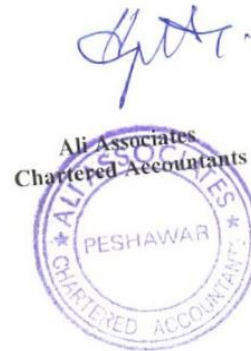

AUDITOR'S REPORT

We have audited the annexed statement of financial position, statement of comprehensive income together with the notes, of Wings Consultant for the year ended June 30, 2020 and we state that we have obtained all the information and explanation, which to the best of our knowledge and belief were necessary for the purpose of our audit.

It is the responsibility of the management of the Organization to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards and the requirements of the relevant provision of the law. Our responsibility is to express an opinion on the financial statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatements. An audit includes examining, on test basis, evidence supporting the amounts and disclosure in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that in our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of comprehensive income together with the notes conform with approved accounting standards as applicable in Pakistan, and give the information in a manner so required and give a true and fair view of the state of the affairs of the **Wings Consultant** for the profit for the year ended June 30, 2020.

Date February 16, 2007

Dear Sir,

CERTIFICATE OF APPRECIATION

I would like to place on record our appreciation for design support services rendered by Mr. Muhammad Kashif as an Architect, on JICA-funded "Earthquake Rehabilitation Project" in District Battagram, carried out for Nippon Koei after the 8th October 2005 earthquake. His professional services were hired for a short period, the project in itself was quite new initiative, the targets were very challenging and the time given for attaining them were limited, but all this was made possible with his continuous efforts.

Mr. Muhammad Kashif worked on design support for the following facilities as Principal Architect of Development Management Consultants.

1. District Health Hospital (DHQ) Battagram
2. T.B Control Centre Battagram
3. Mother Child Health Care Centre (MCHC) Battagram
4. E.D.O Health Office Battagram
5. Rural Health Centre Allai Banna
6. Doctor and Staff Residences at Allai Banna
7. Module for Basic Health Unit (BHU)
8. Civil Hospital Thakot
9. Boys Degree Collage Battagram
10. Higher Secondary School Battagram

Our firm highly appreciate the sincere support of Mr. Muhammad Kashif in recognition of his services we issue this certificate as a token of our appreciation.

Ref No. 209/PRSP-08

Date 31/5/08

TO WHOM IT MAY CONCERN:

Dear Muhammad Kashif
Principal Architect
Development Management Consultants

We are delighted to have an opportunity to provide you with a "Letter of Recommendation".

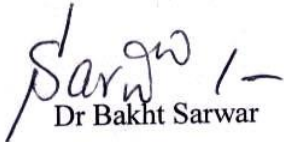

While the design phase of our rehabilitation centers at DHQ Hospital Swat , DHQ Hospital Bunnu and Shah Mansoor Town ship Sawabi is completed, may be unique to the extent, I feel it provides me a unique opportunity to accurately evaluate your skills as both an architect and an organizer.

It is my opinion that your ability to listen and understand the needs and desires of the client is unusual. I was impressed that after only a few hours of meetings and without the help of even a sketch or illustration you were able to produce a drawing that captured the total feeling of the project we desired to build.

Often architects are considered "artists" and not held accountable for their lack of management skills or their failure to control costs. Your ability to hold this project on schedule date and within the estimate cost was remarkable.

Your ability to not only judge what will be most pleasing to the eye but also functional caused a finished product beyond comparison.

We recommend you for the forth coming project.
